Re: Assessment Screen Recommendation

The FC Curriculum Committee voted to endorse the following recommendations of the SLOA Committee regarding inclusion of SLO Assessment Methods in CurricUNET:

1. Replace the current Assessment screen with a drop-down menu that contains a list of assessment methodologies that reflect the range of courses offered at Fullerton College, including an option to select *Other*
2. Require new and revised course proposals to select one of the assessment methodologies
3. Require course proposals that select Other to provide a brief description about that method in a text box

The SLOA committee does not recommend that the Curriculum Committee evaluate assessment methods for appropriateness. Instead, the Curriculum Committee would just ensure that a method had been selected and that a description of a method has been entered in the text box for any proposal that selects *Other*.

The Curriculum Committee is forwarding these recommendations to the Faculty Senate for consideration.
