

September 19, 2012

TO: Academic Senate

FROM: Basic Skills Student Success Steering Committee

We propose the following:

- the committee name be changed to the Basic Skills Committee
- the positions of At- Large Representative and Career/Tech Representative be removed from the committee's membership list

Rationale:

Now that Fullerton College has a Student Success Committee with representatives from every division, our committee can focus on the work of managing the Basic Skills Initiative (BSI) and representing the basic skills and student service areas required by the BSI (English, Reading, Math, ESL, Counseling and Academic Support). The change in name and membership will appropriately reflect this focus.
